In each issue of DogMan we publish the names and units of our new members. Your name will appear in the next issue. If you have materials or stories you would like to have published in DogMan, please send them to Dennis Herrick as soon as possible. He is currently working at least one issue in advance. Issues are published in February, April, June, August, October, and December.

One of VDHA's main goals is to collect as much information about the use of dogs as possible. As you may know, there is very little "official" information available, so we need to create our own. We need copies of documents you might have that indicate where you were, when you arrived, lists of other handlers, etc.

Membership Director
Randy Kimler

Our expectations are high for the VDHA, but we can only accomplish our goals with your help. We hope you will remain active and assist in the organization and operation of the VDHA as much, and as often, as you can.
