

Me!

HAPPY  
BIRTHDAY

Dear Daddy,

I got your and mama's letters the other day and a package today. We just got back to Cu Chi this morning after 12 days in a small firebase way up north of here. We got mortared about the fourth day there and killed one gook about three days ago just as we were setting up night ambush. It rained hard almost every night that we were up there. We're all glad to be back in Cu Chi but I don't know how long we'll stay. Got a letter from Doc today. He didn't have too much to say though. I've got R+R coming up the second week in July but I may not go to save money for when I come home. I leave country the 29th of July.

13 JUNE 70
