

American Atheist

A MONTHLY JOURNAL OF DISTINCTION FOR BRAVE HEARTS AND INQUIRING MINDS

This is where it will happen: in this journal, the new intellectuals, American Atheists, will hammer out the philosophy of living and the moral/ethical values of our nation for now and for the future.

The churches, now totally corrupt, and religion revealed as the mental excrement of primitive man, can no longer set standards for modern living. We must carve out our own viable, relevant, criteria. The new *weltanschauung* will be a comprehensive conception of our world.

How do we get from here to there? By working at it intelligently, of course. We need to use our minds instead of our knees. We stand up to life and find our answers there rather than kneel to ancient

irrational precepts no longer applicable.

The American Atheist is 40 pages in format of which usually one fourth speak to the concept of state/church separation – a premise upon which our nation was founded and from which organized religion and vote hungry politicians have caused it to stray. There are articles by new writers, poems, book and film reviews, and an exciting "Letters to the Editor" section for a real exchange of ideas.

You don't want to miss this road into tomorrow. You will want to be a part of the decision making. This is a magazine in which you participate – not one you just read. This is the magazine planning, now, for a decent life today as well as in all of the future.
