Dear Friend,

The Dallas Freedom Seminar was outstanding in many ways. Two most encouraging features were:

1) The active cooperation of the Dallas School District which arranged for a large delegation of selected students and teachers to attend, and 2) A significant number of both students and teachers were black. We thus attained two of the objectives for which we have been striving, and we hope the Dallas example will be followed in other cities.

Our next seminar will be held in Washington, D.C. in the Ramada Inn Downtown, Friday, Saturday, and Sunday, July 5, 6, and 7. This seminar could hardly be held at a more appropriate time. While the country confronts enormous difficulties and dangers, major attention in the nation's nerve center is focused upon the impeachment of President Nixon. Attention is diverted from the potentially calamitous events that are occurring in Europe.

Events in Portugal may lead to the United States being denied access to military bases in both Portugal and Spain with dire consequences for Israel and Europe. France may elect as president, Francois Mitterand, the candidate of the Socialists and Communists, and the situation that created such chaos and ultimately led to bloodshed in Chile will exist in the heart of Europe. West Germany is in political chaos caused by communist infiltration of the highest echelons of the government, which led to the resignation of the prime minister, Willy Brandt. A distinct possibility exists that all Europe will fall under Soviet influence and become neutralized. The U.S. will then be in a state of virtual siege.

Crimes of violence in the U.S.A. are increasing in frequency and ferocity. Urban guerrilla warfare is now an actuality. The prisons have become recruiting grounds for fanatical and violent killers. Organizations like the Symbionese Liberation Army, the Black Liberation Army, and the Death Angels create a nightmare of terror. The courts and the news media are utilized as service agencies by the Marxist destroyers.

It cannot be stressed too often that the communist strategy for the conquest of the U.S.A. is expressed by the formula, "External encirclement, plus internal demoralization, leads to progressive surrender." Their progress on both fronts is alarming.

In these circumstances, it is imperative that the Washington D.C. Seminar should be a success. Preliminary registrations indicate many students wish to attend. We need the presence of dedicated and informed anticommunists to mingle with and to influence the students, and we need the money to pay for the scholarships and expenses. It would be great if this seminar could be televised.

The ideal is for you to attend the seminar and to contribute so that others can attend. If you cannot do both, please do what you can. An investment of \$50,000 in such a seminar could produce huge dividends in changed lives and enlarged security and freedom.

With Christian love,

Fred Schwarz
