I would like to give you a brief report on the Freedom Seminar presented by the Dallas Freedom Forum. As you are aware, students and sponsors of the Life Leadership Program in Dallas Schools were invited to attend.

Through the efforts of our staff members some 350 students and teachers participated in the program. Floyd Pitts, Assistant Director-Social Studies, who coordinated the effort, indicated that the program was excellently presented, student attendance was substantial, and the program was well received. He further indicated that the seminar will have a significant impact upon student attitudes toward active and positive citizenship and strengthening our democratic system.

Thank you for your help and encouragement in this endeavor and for permitting the Dallas Schools to participate. It was my pleasure to serve on the Advisory Board and we were most pleased with the outcome of the conference.

Sincerely yours,

Nolan Estes
General Superintendent

An investment in the minds and characters of youth is prudent and wise. They are subject to many vicious and destructive forces in school and community. Tragically, in many instances, church must be included in the forces that undermine the faith of the young in their heritage, their country, and their God.

It is disappointing to have the opportunity to reach and win thousands of young people for the cause of love of family, country and God and to be prevented by lack of funds. We need \$50,000 to continue our Seminar program. Will you invest?

With Christian love,
