Dear Friend,

Inflation, like a monster from outer space, threatens to destroy the nations of the industrial world. This simile is apt because there seems to be something mysterious and extra-human about current inflation. It has confused and bewildered the experts. It does not seem to obey the established rules. A new term, stagflation, has been coined to signify the unprecedented condition--inflation plus recession.

The reality of inflation has imposed great hardships on millions of citizens. Those who have retired on a fixed income are suffering most severely. Many who looked forward to comfort in their old age, find their income inadequate to meet basic needs.

This presents a problem for those planning for their retirement. They wonder what investments can be trusted. They endeavor to weigh the relative advantages and risks of insurance, annuities, real estate, stocks and bonds, mutual funds, cattle, gold and silver, and pension plans. A number have asked my advice.

There is only one pathway to guaranteed future security. Jesus showed this path when He advised, "Lay up for yourselves treasures in heaven, where moth and rust do not corrupt, and where thieves do not break through nor steal."

Guaranteed future security is not available on earth. Serafin Menocal, who was manager of the Cuban Electrical Company when Castro conquered Cuba for communism, relates how he thought he had prepared for every possible contingency. He had taken insurance against fire, unemployment, sickness and natural calamities and thought his family was safe. However, he had no insurance against the triumph of communism. When it seized power, all his insurance proved worthless and he and his family became refugees. Fortunately, he was able to flee and take refuge in the U.S.A. If communism conquers here, there will be no place of refuge to which to flee.

I remember a conversation I had with the outstanding radio and TV personality, Joe Pyne, a short time before he died. He described the magnitude of his success and his future plans. His large income enabled him to set aside enough so that in a couple of years he would retire to Tahiti and enjoy a glorious life of leisure, sea, sun and sand. Before his vision could become reality, cancer struck and he died. How familiar, yet tragic this story is. Jesus immortalized it with this parable:

"The ground of a certain rich man brought forth plentifully: And he thought within himself, saying, What shall I do, because I have no room where to bestow my fruits? And he said, This will I do: I will pull down my barns, and build greater; and there will I bestow all my fruits and my goods. And I will say to my soul, Soul, thou hast much goods laid up for many years;

take thine ease, eat drink and be merry. But God said unto him, Thou fool, this night thy soul shall be required of thee: then whose shall those things be, which thou hast provided?" (St. Luke 12:16-20)

How can we lay up treasure in Heaven? Jesus taught that this can be done by investing in the lives of suffering people in order to alleviate their suffering. He told the rich young ruler, "Sell what you have and give to the poor and you shall have treasure in Heaven." (St. Matt. 19:21)

The triumph of communism has caused immense suffering in many countries. If communism should succeed in the U.S.A., millions would undergo deprivation of the essentials for both material and spiritual well-being. To give to insure against the triumph of communism, is to invest in Heaven.

Our Crusade program alleviates present suffering and is designed to prevent future anguish. It has physical, intellectual, and spiritual dimensions. A gift to support the Christian Anti-Communism Crusade is a wise investment.

### The Indian Christian Crusade

The Indian Christian Crusade conducts orphanages in which hundreds of boys and girls receive food, clothing, shelter, education, medical care and Christian training. Foster parents adopt individual orphans and contribute \$10 per month for the support of their child. They receive a picture and biography of their foster son or daughter.

At present we have 26 girls awaiting foster parents. Some of the girls are pictured on the last page.

### Antisubversive Seminars

The deadly doctrines of communism, especially the doctrine of imperialism, transform normal, decent young Americans into fanatical killers such as the members of the Symbionese Liberation Army. With the teaching that prevails in many educational institutions, no son or daughter is safe. At our antisubversive seminars we expose the errors of these doctrines and deliver many from their seductive embrace.

The following letter, received from a high school girl who attended the Dallas Freedom Seminar, illustrates the response of the students:

Dear Dr. Schwarz:

"I really loved the seminar because, although I had heard words such as communism, capitalism, free enterprise, left wing, etc., no one had ever explained them to me in a way I could understand. The seminar gave me a chance to find out what they meant, to tie together these definitions, and to get rid of some of the biased ideas I had.

"This seminar was also very helpful to me because I hope that someday in the future I will hold a job in the government or journalism. It helped me find out a little more about these

careers. It let me know what made this nation great and the things that can stand a little improvement (so we can make it better by working together).

"Since it is summer vacation, my friend Kathy and I have decided that now is the time to study communism. We know that it is a complicated subject and that it will take a long time for us to understand it fully, but at least we are starting somewhere. We are going to ask Dr. Nolan Estes (the Superintendent of the Dallas Independent School District) if he can give us any information on communism. We have already asked our school counselor for information. We would like to know if you know anyone in the Dallas area to whom we can talk about it and if Kathy and I can be on your mailing list for your newsletter.

"I think part of the reason people don't want to do anything with communism is because of their ignorance. This sometimes stems from their fear of being called a 'communist'. I think people shouldn't be afraid to be called communist if the reason they are studying it is because they want to be able to fight against it effectively. Kathy and I want to study communism because we like our capitalist, free enterprise, and two-party system."

Sincerely, Jean

### The Newsletter

The Crusade newsletter contains accurate, detailed, documented up-to-date information on the doctrines, plans and objectives of communism and associated forces of destruction. It is sent free to the President, Members of the Cabinet, Congressmen and Senators, Governors, newspaper editors and columnists, news directors of radio and T.V. stations, college libraries and many state legislators, high school libraries, teachers, students and citizens who will read it.

I was encouraged immeasurably when I received the following letter from a businessman friend, accompanied by a substantial gift:

"As we review the assets of our business, it is quite obvious that one of the most valuable assets we have is our stake in the free enterprise system. We can buy insurance covering all the other assets of our business, but the only way we know how to insure this one is to help further educational efforts such as yours in the effort to enlighten the American public as to the future of our free enterprise system if the forces of collectivism throughout the world are successful in achieving their goals.

"Accordingly, we are enclosing an 'insurance premium' to help further your work."

If other businessmen would do likewise, so much more could be done to halt the communist advance. Like other enterprises, the Crusade is confronted by the specter of relentlessly rising costs. We need \$50,000 each month to sustain our work adequately. The struggle to secure funds is ceaseless. It would lighten the burden if more friends would make a regular monthly contribution. Some regret that they cannot give substantially but regular small gifts soon add up to a substantial sum.

We need \$100,000 to continue and expand our work. I request this with gladness of heart as I know your gift will enrich you both now and in the future and prevent others from falling

victim to delusion and suffering. Given with faith and love, it will build a secure heavenly estate.

With Christian love,

*Fred Schwarz*  
Fred Schwarz  
President
