HEmlock 7-0941

Dear Friend,

Many years ago Whittaker Chambers, when he renounced communism, declared he was forsaking the winning for the losing side.

Recently, Alexander Solzhenitsyn declared that World War III has already been fought and that the communists have won it.

An acute observer of the Italian scene declares that the gains made by the communists in the recent municipal elections indicate that an ever-increasing number of Italians recognize the inevitability of communist victory and are joining the winning side.

It would be easy to yield to despair. However, as we approach the bicentennial year, it is appropriate to remember that most informed observers were convinced that America's cause was lost during the terrible winter of 1777-78 that George Washington and the Continental Army spent at Valley Forge. A resolute spirit, a righteous cause, and faith in God can turn defeat into victory.

Intelligent action is the antidote to the anguish of despair. "It is better to light one candle than to curse the darkness."

We have many projects that need your help. These include:

1. Distribution of the testimony on Urban Guerrilla Warfare published by the Senate Internal Security Subcommittee: We recently sent a copy to each high school and offered to supply copies free for the students. The demand is great and taxing our resources, but hundreds of thousands of high school students will be studying this document in class. It is now being sent to all colleges and universities and a similar response is expected.
2. Southern California Antisubversive Seminar: This will be held in the Inn of Tomorrow, opposite Disneyland, November 28, 29, and 30. Through scholarships we can reach hundreds of potential revolutionaries and redirect them to the pathway of creative citizenship. We need your financial help and, if possible, your attendance.
3. National Christian and anti-communist workers: We are supporting 53 national workers in India who travel, preach the gospel and expose the doctrinal errors and deceitful techniques of communism. You may support your own worker for \$15 a month.
4. Vietnamese Refugees: We are supporting a number of these while they attend college, learn the language and adjust to life here.
5. Christmas Cards: These are available at no cost and in the quantity requested to all who make a gift to the Crusade. They are attractive and colorful and provide a unique opportunity to combine Christmas greetings with service for freedom.

Financial support has slumped severely during the past two months. An extra effort is needed during the final two months of this year. I ask you to view the progress of communism as a challenge to greater sacrifice and not as a justification for inertia and despair.

With Christian love,

Fred Schwarz
