Dear Friend,

We are still without news of the location and fate of the wife, son, and daughter of Hoang Van Sao. They left Vietnam in a boat on June 19. Every morning, when Sao enters my office, I look at his anguished face and try to encourage him. His limited English is quite adequate to communicate his suffering when he says, "I'm so worried." We hope and pray but feel so helpless. We pledge to do our utmost to provide security and sustenance for the persecuted and tormented men, women and children of Vietnam. We invite you to join us in this pledge. Send your sacrificial donation designated for Vietnamese refugees. Every cent will be used for the refugees with no deductions for administration.

You Can Trust the Communists (to be Communists)

Testimonies continue to flood in which prove the effectiveness of the book, "You Can Trust the Communists (to be Communists)." Our devoted friend, Jan Connor of Indianapolis, sent the following letter, which she has received, with the comment that it should encourage me. It did. Here are some extracts:

"I'm a black student from Virginia. Right now I'm attending Campus Crusade for Christ Institute of Biblical Studies. One day I was loaned a copy of the book titled, 'You Can Trust the Communists (to be Communists)' by Fred Schwarz. This book was so informative that I immediately read it three times. Then I handed it to a student friend of mine who possessed a deep repugnance for western capitalism and a deep admiration for Chinese Socialism or Communism. I ask that you will help pray for him.

"Also, I need more books. If you could tell me the cost of each book, I'll send you the money for four of them. Many African students on my campus have told me the Russians are their friends. One student I met denied all the freedoms of America though he's here enjoying them. He has scapegoated all white men of the western world for the collective evils of Black Africa from Idi Amin to as far back as you care to go. Russia and Cuba are only in Africa to help the black man gain freedom, he claims.

"P.S. Has Dr. Schwarz written any other books?"

We are sending the four copies of "You Can Trust the Communists (to be Communists)" to him immediately, at no cost, with the offer of as many more as he can use.

Italy

The following letter came from Italy:

"Dr. Schwarz's book has met with the favor of many in Italy: Teachers, students, pastors, as well as priests. Copies of the book were sent to each Congressman and Senator of the Italian Government and to all political parties, communists included. Newspapers published reviews, positive and negative. We awakened many consciences in our nation. Unfortunately, our copies of the book are almost exhausted. The other day a Congressman asked us if we could put at his disposal 5 to 10 thousand copies, but we could only supply 1,000."

With your help, we financed the translation, printing, and distribution of 20,000 copies. In the recent election the communists lost 12 percent of the vote they had previously received. We must continue the offensive at this favorable moment.

Opportunities abound everywhere. Please make your contribution to the defeat of the communist program to conquer the U.S.A.

With Christian love,

Fred Schwarz
