

Parliament, through it's Auditor-General, is directing Canadian Broadcasting Company to collect these unconstitutional taxes from Canadians for support of the war in Viet Nam.

FEDERAL PERSONAL INCOME TAX TRUTH

Power may be given to Congress or to the States, and power may be taken from Congress or the States, or greater rights may be given to the people by amending the U. S. Constitution according to lawful procedure in Article V, BUT, Article IX of Amendments to U. S. Constitution forbids taking away the rights of people, even by Constitutional Amendment. Even if the words REPRESENTATIVES and DIRECT TAXES had been included in Amendment XVI, which Congress pretends as authority for the unlawful income tax system, it would remain unlawful to use this provision to take from people the right to be represented in Congress, in proportion to the direct taxes paid. Personal Income Taxes are unlawful because each person's State is not represented in Congress in proportion to the direct taxes paid. "The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people." Article IX of the Amendments.

FEDERAL CORPORATE INCOME TAX

Taxes on incomes of corporate entities are excise or privilege taxes, not 'direct taxes' on the people. Entities are not people and do not vote. "All duties, imposts and excises shall be uniform." Art. 1, Sec. 8, Cl. 1, U. S. Constitution. These are not to be divided among the states according to the census, as is required of 'direct taxes'. Excise taxes levied upon corporate incomes can only be uniform when levied against the GROSS INCOMES. The Net Income method, now in use by the Internal Revenue Service, is an unlawful special privilege, which allows the Rockefeller Foundation Trust to acquire a vast empire, which rightfully should be the property of our United States Treasury. There are over Five Hundred of these wealthy trusts now holding wealth filched from the U. S. Treasury with the blessing of Congress and the Internal Revenue Service. Unlawful taxation places an unfair burden of taxes, upon the worker, who produces goods and services so high in price, world markets cannot buy them. Unlawful taxation strangles our economy! Dean Rusk, Secretary of State, and Johnson's chief stooge, was an executive of the Rockefeller Foundation Trust.
