GRASS ROOTS LIST June 1971

This list is a revised version of the list we published in June, 1970. Since that time, many groups have become dormant and crossed off our list, others have sprung up and become very active. Most of the groups are oriented towards working in their own community ---- at a grass roots level. Large National and lobbying groups are not represented, Although many listed here may do some lobbying, it is not their prime function.

Environmental Resources, 2000 P St, N. W., Washington D C 20036, has compiled a very comprehensive annotated list, with approximately 9000 groups represented. They were unable to get funding to print 5000 copies, so write to them and find out how much a zerox copy would cost.

ECCC beside a name indicates an Ecology Center, which is a member of the Ecology Center Communications Council, Box 21072, Washinton, D C 20009

We will try to keep the list up to date, sending out supplementary sheets quarterly

Where a street address is not
given, and only the name of the
paper and the city are given,
it indicates that we do not know
if it is all right to publicize
the address that we have for that
paper. If your paper is one of
these, please let us know what
address we can print for you.
