

HIGH SCHOOL STUDENTS UNITE!

NOT against your teachers; NOT against yourselves but against those forces of evil which are robbing you of Your stake in the future.

Schools are JAILS! The education we are getting is a dead end - we don't need an education to go to Vietnam or to collect a welfare check.

The lousy education that we are getting now is going to be lousier if these PIGS have their way. We can stop this if ALL OPPRESSED STUDENTS unite and demand:

1. That 33 new schools be built immediately to relieve overcrowding;
2. That job-training and college-preparatory programs be EXPANDED;
3. That productive, decent-paying jobs be GUARANTEED to us;
4. That college education be guaranteed to those of us who want it and can't afford it.

They say they don't have the money to give us these things. They LIE! You know who has the money and you know who they got it from: US!
STOP being EXPLOITED! Get off your asses! STOP complaining and DO SOMETHING! Join the MOVEMENT and get involved in the FIGHT FOR YOUR LIVES.

If you aren't full of bull and really care, come to a meeting this Saturday at 12 noon. We meet in front of Paley Library, Temple University.
