

~~The FBI who illegally use~~ police state tactics, have gone so far in opposing any White Patriot who refuses to go like sheep to the slaughter, that they have conspired against, and succeeded in rail-roading and apparently murdering, numerous Patriots.

The FBI works in collaboration with the ADL, apparently. The ADL—a private secret police organization that determines and enforces its own "laws" by interfering with our basic American Rights to freely express ourselves—by a conspiracy of abuse, economic pressure, and intimidation. The ADL is a Jewish organization that maintains regional offices throughout the United States, thousands of paid agents who tabulate, evaluate, catalogue and file dossiers on the political, Religious and philosophic views of literally millions of American Citizens.

It carries on a continuous campaign against any person or organization with which it disagrees. It engages in what its Directors term "book stifling" and "quarantine treatment", devices designed to destroy literary works of which they disapprove, and by pressuring all news media to withhold favorable publicity from any individual or organization ideologically or politically adverse to the views of the ADL, which apparently are that we shall be subjected to a world government, a one world Judaized, de-Christified religion, one universal mongrel herd with the exception of these Jews who will not mongrelize with the rest of us, and who plan to emerge as leaders and masters of this new mongrel herd.

One tactic of the FBI is to "confidentially" accuse their victim so that the unsuspecting employer, policeman, news-man, creditor, etc. believes he is acting properly, and thus does the "dirty work" for the FBI.

The FBI has somehow gotten off the path, so that instead of protecting our Nation from the attacks of anarchist bombers, Black terrorists and other Revolutionists, they apparently join in the conspiracy to deprive those Whites, who resist the Jewish scheme of one race, one religion, world government, of their Rights.
