Gentlemen:

GREENWOOD Reprint Corporation is pleased to announce a major reprint program, the publication of the series, *Radical Periodicals in the United States, 1890-1960*. The project will be composed of full-sized reprints of that periodical literature of a "radical" nature published in the United States during that seventy year period—i.e., Anarchist, Pacifist, Socialist or Communist.

Not only will we reproduce the full text of the original publications, but each title included in the series will also feature a new introduction by an outstanding writer. We believe that these introductions, in themselves, will form a significant body of literature in the field.

Radical periodicals published in the period 1890-1960 contain the writings of some of the most outstanding political and literary writers in the United States. They also reflect the opinions of those organizations, active as minority groups, which, nevertheless, have had a significant impact upon 20th century social and political thinking in the United States.

As "underground" publications, the numbers printed were extremely small. Only a handful of complete files are to be found in the libraries of the United States, and virtually none outside of this country.

A price list for clothbound sets in this series appears on the reverse side of this letter. These volumes are *now in production* and will be available *before April 1, 1968*. A pre-publication discount of 10 per cent will be in effect until February 15, 1968.

We hope that you will take advantage of the pre-publication discount and send your orders to the above address or to the most convenient Feffer and Simons office as listed on the enclosed sheet.

Sincerely yours,

GREENWOOD REPRINT CORPORATION
