ACTIVITIES OF THE NUFC AND THE RGNUC DELEGATION LED BY DEPUTY PREMIER KHIEU SAMPHAN AND SPECIAL ADVISOR IENG SARY

The NUFC and the RGNUC delegation led by the RGNUC Deputy Premier Khieu Samphan and Special Advisor Ieng Sary has successfully completed its tour and returned safely to Cambodian liberated area. From March 28 (arrival to DRVN) to June 13 (end of tour to SVN) in two months and a half, the NUFC and the RGNUC delegation had made friendly visits to 13 friendly and brotherly countries: DRVN, PR China, DPR Korea, Albania, Yugoslavia, Romania, Algeria, Mauritania, Cameroon, Egypt, Syria, liberated zones of Laos and South Viet Nam, which gave greatest honours to prominent representatives of heroic Cambodian people. The long tour of the NUFC and the RGNUC delegation and the great victories won on all fronts at that time, have prodigiously enhanced the personality of the Cambodian nation and people, the patriotic, independent and sovereign revolutionary struggle movement both inside the country and outside. The Cambodian people set an example of the "small country daring fight and victoriously fights a big one" the US imperialists who aggress them unjustly.

A.K.I. ARTICLE

In one of its articles, A.K.I. reveals that US imperialism, particularly the Nixon-Kissinger administration cannot get out of its responsibilities for the war of aggression in Cambodia. Referring to the documents published at the conference of the 81 communist parties and workers in 1960, US imperialism remains the international gendarme and all the revolutionary militants in the world perfectly know the US imperialist true nature, the supreme stage of capitalism, where the parasitic capitalism is agonizing. US imperialism is a two tentacle-leech, the one sucks the US working masses, the other white bleeds the people's masses in the countries under its neo-colonialist domination.

The Cambodian people, their PNLAF, NUFC and RGNUC perfectly know the imperialism's war-monger, ferocious, obstinate and decadent nature.

That is why for more than four years they have been struggling successfully against the US aggression and against all the US imperialist and their lackeys manoeuvres; the people's revolutionary war they are waging against the war of aggression of the US imperialism for the survival of their nation actively and positively contributes to the defense of peace in Indochina, Asia and in the rest of the world. Despite the fact that some governments continue to adopt ambiguous attitude and political position toward the NUFC and the RGNVC and the fact that other governments participate whether consciously or not in the aggression in Cambodia, all peace, justice and social progress-loving peoples and countries, including the US progressive people have shown and continue to show their warm sympathy, support and assistance to their just struggle. To all those hundreds of millions of people, it is an internationalist duty they are proper to fulfil.

The Cambodian people, their PNLAF, NUFC and RGNVC are very proud and strongly encouraged for having them by their sides. They are determined to continue the people's war for national liberation against the war of aggression of the US imperialists without acceptance of compromise or retreat until the full realization of the 5 point-declaration on March 23, 1970 of Samdech Norodom Sihanouk Head of State and Chairman of the NUFC until that they will drive all the US imperialists out of Cambodia, that they will wipe out all the Phnom Penh traitors and edify an independent, neutral, peaceful, democratic and prosperous Cambodia within her territorial integrity./.

STRUGGLE OF THE INHABITANTS IN PHNOM PENH AND IN LOCALITIES UNDER TEMPORARY CONTROL OF THE ENEMY

ECONOMIC FIELD :

The Phnom Penh traitors face the extremely serious economic crisis: they make everything come from abroad, even salt and rice. On the markets, goods grow rare and prices prohibitive. Money has no more value. Corruption is at its highest degree. The traitors are living through thanks to the aid of the United States and Japan themselves plunged in graver and graver economic and political crises.

In the liberated area administered by the NUFC, the economic situation is excellent. The PNLAF will no doubt annihilate the Phnom Penh traitors and their regime.

DEFEAT TO THE "GENERAL MOBILIZATION" OF THE TRAITOR LON NOL :

The strategy of a chessboard square of the traitor Lon Nol has become a system of barbed-wire entanglements which tightens his neck stronger and stronger and from everywhere. His organism of "general mobilization" has fallen into the passivity state strongly and repeatedly shaken by the struggle of the people's masses in Phnom Penh and other localities under the temporary control of the army. The strategy of Lon Nol's squaring has broken down. It will inevitably drag the traitor Lon Nol and his organism of "general mobilization" in the Mekong depth./.
