HENRY M. MORRIS, Ph.D.
Director
DUANE T. GISH, Ph.D.
Associate Director

Dear Friend of I.C.R.

The enclosed issue of Acts and Facts features the first "Impact" article written by Harold Slusher since he came on a permanent basis to the I.C.R. staff in July. I think you will enjoy his discussion of certain evidences for the special creation of the universe.

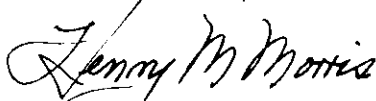

At this writing, Dr. Gish is just concluding an exciting lecture tour presenting creationism on a dozen Canadian campuses. A complete report will be given in next month's Acts and Facts.

We are finding great interest in our new handbook, Scientific Creationism. We believe it is the most authoritative and useful reference work covering the entire scope of this subject that has appeared to date. If you don't yet have a copy, we urge you to order one for yourself, as well as gift copies for your various teacher friends.

You will also receive with this mailing a new I.C.R. informational brochure, including a complete listing of our books and cassettes. If you know others who would like to receive this, as well as our monthly newsletter, Acts and Facts, please let us know.

We are grateful for the faithful financial support of so many of you, especially in these difficult times of inflation. There are many needs, but God does always supply those needs, first for His people and then, through them, for His work. Thank you for your encouragement and help.

Yours in Christ,

Henry M. Morris
Director
