Please sign the following petition and, if possible, ask four friends to sign also. What makes this petition drive special is that it is being co-sponsored by several national organizations in order to obtain hundreds of thousands of signatures. The petitions will be presented to the appropriate officials and publicized in both local and national media on Inauguration Day. With a new President being elected, this is an especially critical time to raise these post-war issues.

The actions advocated in the petition can ease the unnecessary suffering of the Indochinese people and the American people, including MIA families. DON'T DELAY. ACT NOW. YOUR SIGNATURES ARE IMPORTANT.

Lest We Forget...An Appeal for Reconciliation

Amnesty-Reconstruction-Recognition

We call upon our government to respond to the problems left by the tragic, unpopular and unjust war in Southeast Asia. We urge the new Administration and Congress, seeking a true understanding of our recent past and in the best tradition of the American people, to:

- 1) Normalize diplomatic, trade, and cultural relations with the nations of Indochina, and accept admission of Viet Nam to the United Nations;*
- 2) Provide reconstruction aid to heal the wounds of war;*
- 3) Grant unconditional amnesty to all draft, military, and civilian resisters and veterans with less than fully honorable discharges;*
- 4) Assure adequate rehabilitation and compensation to all physically or psychologically wounded veterans.*
