ALBANY N Y 12210  
U S A

JOHN J. BELLIZZI  
EXECUTIVE DIRECTOR

Dear Colleague:

You are cordially invited to become a member of the International Narcotic Enforcement Officers Association. Membership is now open to all International, Federal, State, County and Municipal enforcement officials and other qualified applicants who are engaged in or interested in narcotic control or enforcement.

The basic purposes of the Association are to promote and foster mutual interest in the problems of narcotic control; to provide a media for the exchange of ideas; conduct seminars, conferences, and study groups; and to issue publications. In addition, to secure and enlist the cooperation of all who are engaged in the field of narcotics control and to devise ways and means for improving international, national, state and local laws, police methods, administration of justice and enforcement of law in relation to narcotics.

Our Organization has been well received both nationally and internationally. Among some of our most prominent members are Harry J. Anslinger, United States member of the Narcotic Drug Commission of the United Nations, former United States Commissioner of Narcotics Henry L. Giordano, and John E. Ingersoll, the Director of the Bureau of Narcotics and Dangerous Drugs of the United States Department of Justice.

If interested, please complete the enclosed card for membership and return it to me in the addressed envelope with your check, or if you wish, we will bill you or your agency. Members receive membership cards, certificates and all Association publications. Please bring this notice to the attention of others in your organization who may wish to become members.

Sincerely yours,

  
JOHN J. BELLIZZI  
Executive Director
