

# HOW TO WIN 35 BATTLES AT ONCE

DO YOU GET ANGRY and want to lash out at gross injustice, at political corruption and the violations of your rights—when they come to your attention?

If you do, you must be in an endless dither trying to figure out just **which battle to take on today**. Listening to a news cast or reading the daily paper gives us the feeling that we are being maneuvered into a series of new battles to be fought at the time and place the enemy selects.

We are told with authority that “we can’t win them all.” The fact is, we have not won any, up to now. Despite this, there is a **sure way to protect** ourselves against all present and potential invasions to our liberties, and to regain the ground already lost.

This should come as no surprise. **We wouldn’t have these battles on our hands now** if we followed the rule established by the **Founding Fathers** and kept the Constitution in full force and effect. Thomas Jefferson told us there was but one way to do it, “bind down those we are obliged to trust with power by the chains of the Constitution.”

It was the **best possible advice** for staying out of the clutch of tyrants in the first place—and is the only possible way we can get out of the present dilemma.

Once we released the politicians and bureaucrats from their “constitutional chains” they began extending their power over us as swiftly and totally as possible, and in a multitude of different ways.

If we fight them the hard way—one fruitless battle at a time—we will be drawn into every kind of a battle our enemy wants to fight, and on the terms the enemy imposes. The skillful multiplication of these minor conquests was designed to exhaust the people and leave them little time, energy or resources for the main job of restoring freedom.

The LIBERTY AMENDMENT has been designed to fight all the multitude of apparently different battles at once—and **WIN by restoring the Constitution** to full force and effect. Once the amendment is applied, a multitude of diversified battles will be won.

Look over the following list of battles that will be won by the application of the LIBERTY AMENDMENT. The list is by no means complete, but if one or more of these may be occupying your mind, body and soul, then let’s get together for the main event and win them all at once, because the LIBERTY AMENDMENT will:

1. Stop Inflation.
2. Halt the Federal take-over of Schools.
3. End the Involuntary Servitude of the “Withholding” System.
4. Stop the Issuance of “Funny Money” and Restore a Sound Currency.
5. Restore States Rights and Personal Freedom.
6. Get the Economy Moving Again.
7. Restore Farm Control to Farmers.
8. Terminate Supreme Court Violations of the Constitution.

9. Stop the Evil of Forced Mass Medication.
10. Suspend the princely privilege of rent free, tax exempt political enterprises.
11. Cut off “Foreign Aid” to Foreign Tyrants.
12. Stop the Political Foul-up of our Economy.
13. Put “Coinage” back into the hands of Congress.
14. Restore the Constitution, and put Us Back on the Road to Greatness.
15. Halt the Confiscation of Land and Enterprise, Restoring Both to the People and State Jurisdiction.
16. Put the Defense Department back into the Business of Defending Us, rather than Competing with Those It Defends.
17. Get the Power Business back to Economic Management.
18. Permanently arrest the Threat of Socialized Medicine.
19. Prevent Meddling in Domestic Affairs by International Agencies.
20. End Double, Triple and Quadruple Taxation.
21. Cut the Cost of Government in Half.
22. Reassert the Power of Liberty to the Captive Peoples of the World.
23. Stop impoverishing the people with Poverty Programs.
24. Get Us Back to Constitutional Law and Order.
25. Discontinue Lending Tax Dollars to Special Interests.
26. Eliminate the Special Privilege of the Tax Exempt Foundations by Extending Tax Exemption to All.
27. Disengage Us from Detrimental International Entanglements.
28. Eliminate the Threat of “Mental Health” Programs.
29. Reestablish our Independence from Foreign Domination.
30. Stop the Corruption of “Urban Renewal.”
31. Prevent “World Government.”
32. Protect Private Property and Enterprise from Political Corruption.
33. Restore our schools to local jurisdiction, and
34. Establish the Blessings of Equity and Justice in all our Business Relations.

Since so many problems will be solved by this one act—and since so many people’s special areas of interest are covered by it—why shouldn’t we apply ourselves to the one great task of passing the LIBERTY AMENDMENT?

There is no need to fight negatively on all the separate fronts when we can unite and approach freedom from the positive standpoint. The LIBERTY AMENDMENT will automatically eliminate many threats we now fear, rectify wrongs that have occurred, and promote a climate of freedom and security for all of us.

And—Oh, Yes. Don’t forget No. 35. It will repeal the federal personal income tax!

# WANT PROOF OF EXCESSIVE TAXATION

## HERE IS THE PROOF

U. S. Population	Federal Budget	Annual Cost Per Person
1900— 76 million	1901 \$525 million	\$ 6.90
1910— 92 million	1911— 691 million	7.51
1920—106 million	1921—5.062 billion	47.75
1930—123 million	1931—3.577 billion	29.08
1940—132 million	1941—13.98 billion	105.90
1950—151 million	1951—45.797 billion	303.29
1960—180 million	1961—97.795 billion	543.30
1970—210 million (Est.)	1971—200.8 billion	956.19

The bureaucrats and the politicians in the United States are robbing the people blind!

Those in the middle class will soon have the gold and silver stolen from their teeth, even before they die! When **everyone** is poor (except the politicians, the bureaucrats and the super-rich) **that's socialism**.

The above figures describe an outrageous situation. "Population" means every man, woman and child. Take an average of four. Multiply \$956.19, the last figure above, by four and you get \$3823.76 which is what the average **working** family pays in federal taxes **alone**. Add to this the local, county and state taxes and all the **hidden** taxes in everything purchased and you will find that the average **working** family pays about **half** of all that is earned just to pay taxes. Some breadwinners hold down two jobs to make ends meet. Many wives have to work to help meet living expenses. And why all these taxes? To support armies of non-productive bureaucrats and politicians — and to support other parasites on the dole! The situation is **completely out of control**.

What to do? There is only one thing to do . . .

**shut off the water.** Repeal the socialistic 16th Amendment to the U. S. Constitution. This is the progressive income tax amendment which was lifted directly from the Communist Manifesto.

But how? Get in touch with your State Legislators by phone and in person and demand that your State Legislature adopt the Liberty Amendment resolution to stop confiscation of private property and repeal the 16th Amendment. When two-thirds of the States have done so, the Convention **must** be called. This is **mandatory**. The Constitution says so. The U. S. Congressmen (the biggest and most irresponsible spendthrifts in history) will have nothing to say about it. The President will have nothing to say about it. The courts will have nothing to say about it. The 16th Amendment will be repealed by **the people** by taking the action prescribed. Do it **now**.

For details, send \$1.00 to Liberty Amendment Committee, 6413 Franklin Avenue, Los Angeles, California 90028. Do it **now**. Time is running out. And contact your State Legislators and demand your State Legislature pass the resolution mentioned above. It **can** be done. It **must** be done. It must be done **now**.
