## Committee of the U. S. A.

6413 FRANKLIN AVENUE, LOS ANGELES, CALIFORNIA 90028

Dear Friend

In the time lag between writing the enclosed REPORT ON FREEDOM and its mailing, three new "after shocks" have occurred:

(1) The widely advertised petroleum shortage suddenly has been exposed as a great world-wide over supply.

(2) Not to be outdone by the President, Labor's demigod Meany, (who demanded tax increases last year) demanded a \$30 billion tax cut this year, and the Senate dutifully adopted such a measure almost instantly.

(3) A new move emerged to jump social security taxes by at least \$18 per year per employee to shorten down take-home pay.

JUST LAST YEAR President Ford told us OUR GREATEST ENEMY IS INFLATION. Now comes the greatest dose of inflation in our history. And this is the way it will go UNTIL WE STOP IT, as we can, by restoring the Constitution to force and effect as the LIBERTY AMENDMENT provides.

Democrats and Republicans combined to reintroduce the Amendment this year as H.J.Res. 23. It is on its way to the Legislatures of most of the States. Lessons on the Constitution are going into extensive circulation. Training tapes are building informed leaders in every part of the country. The campaign is effective, but not nearly enough. The critical need is for money to expand and promote the all important fact that things will continue to get worse until we, ourselves, cure our ills by restoring our Constitution to full force and effect, as our Amendment provides.

CAUGHT BETWEEN rampant inflation on one hand and epidemic depression on the other, the problem of how much to give and to whom is most important. We hope that on the basis of program, purpose and dedication the LIBERTY AMENDMENT COMMITTEE will hold top priority at this critical time. Please use the enclosed self-addressed envelope to send your very important contribution to the cause of freedom. And won't you order a supply of these REPORTS to send to your friends, because they are as deeply concerned now as you are. Thank you for your support.

Sincerely,

WILLIS E. STONE  
NATIONAL CHAIRMAN
