Committee of the U. S. A.

6413 FRANKLIN AVENUE, LOS ANGELES, CALIFORNIA 90028

Dear Friend:

The politically manipulated disasters of recent months give us a preview of the calamities which lie ahead if we fail to restore and enforce our Constitution. More and more we come to a realization of the power of the LIBERTY AMENDMENT to stop, and reverse, the accelerating inflation, taxes and general political take-over.

INFLATION is one of the causes described in the attached REPORT ON FREEDOM which is driving us to a crisis of great proportions. These same conditions have caused the collapse or overthrow of many governments just this year! To prevent this happening here, we must meet the challenge by uniting our strength with that of many other organizations, each seeking fundamentally the same things, and thus bring about a Constitutional Convention through which the LIBERTY AMENDMENT and some other proposals will get before the American people for their decision.

Time is enormously important. Recent political developments indicate time is really short. The confusion about "what to do" will vanish as it becomes clear that the only safety we shall ever have depends upon our efforts to make the Constitution work again. We cannot afford to delay.

The REPORT ON FREEDOM enclosed describes the great problems confronting us, and how through a united effort to utilize our combined power, we can enforce the Constitution and have a much needed Constitutional Convention which will put the LIBERTY AMENDMENT, and other related proposals, before the American people for THEIR decision while there is yet time.

The effort to unite diverse groups in a common cause will require a "crash" program of public information and recruiting on a grand scale. This will be possible only through your strong, dedicated leadership and financial support. The great urgency confronts us NOW, and the need for your maximum effort has never been greater. Please give everything you can, in money and effort, to this action while we have the time.

Thank you, sincerely,

WILLIS E. STONE
NATIONAL CHAIRMAN
