Each tape raises 5 important questions about the LIBERTY AMENDMENT and how it works.

After each question 5 minutes of open discussion is recommended, followed by the "best answer" we have found through the years.

Each tape also presents 5 sections of the Constitution of the United States.

After each section is read, a 5-minute discussion to decide on its real meaning and purpose is recommended, followed by a commentary by a leading authority.

Here is a leadership course handling 75 pertinent questions and reviewing the entire Constitution, including the Bill of Rights and its "Preamble" as a basis for a tremendous expansion of public knowledge of our institutions of Liberty.

These tapes should be played repeatedly. They find ready audiences

at all school levels and all ages. They can have a tremendous public impact. Order NOW and put these powerful tools for Liberty to work in your area.
