6413 FRANKLIN AVENUE, LOS ANGELES, CALIFORNIA 90028

February, 1974

Dear Friend:

It was not difficult to say good-bye to 1973, and, being mortal, we look hopefully forward to this new year. We know the odds are against us, yet there are hopeful signs that we can offset the cumulative attacks upon us and produce some positive action for our liberty in 1974. The attached REPORT ON FREEDOM tells the story and deserves study.

Certainly all of the ingredients for some victories on our side are in evidence, including a very literal uprising among the American people who are fed up to here with the progressive impositions being inflicted upon them. Everyone wants to do something. Listen to any conversation among the young or old, and everyone in between, and you know they want to do SOMETHING, but they don't know what, or how, or when, or where.

It is our job to reach them, guide them, show them, but that takes money and lots of it; money we never have had, but need now so desperately to really handle the job of communication facing us.

Why not send this REPORT ON FREEDOM to your entire list? Your friends are concerned, too, and this REPORT gives many suggestions for positive action to help us to climb out of this miserable state of affairs in which we now find ourselves. This road map to freedom includes these suggestions:

1. Placing WHERE THE MONEY WENT in thousands of school libraries.
2. Additional trained spokesmen explaining the LIBERTY AMENDMENT.
3. Lessons on the Constitution used in schools, colleges, and adult groups.
4. Youth Council meetings to reach and involve the "Now" generation.
5. The Utah Plan to force the LIBERTY AMENDMENT as 1974's main issue.

This year of 1974 will be a year of crisis and decision. We can save freedom if we do an adequate job, or we can lose it and doom the world to a repeat of the dark ages of despotism. What happens will be determined by what is done now, so I appeal most earnestly for your most generous support of these projects, which combine into a tremendous campaign for the restoration of our Constitution through the LIBERTY AMENDMENT.

Sincerely,

WILLIS E. STONE
NATIONAL CHAIRMAN
