## Committee of the U. S. A.

6413 FRANKLIN AVENUE, LOS ANGELES 28, CALIFORNIA

Dear Friend:

Crowded events and speeding time have made the first 15 weeks of 1971 the most hectic ever - BUT THAT IS GOOD!

The enclosed REPORT ON FREEDOM will tell of our pyramiding activities. It appears the bureaucracy has lost the initiative, although it didn't change anything on "tax day 1971." We believe, however, we may soon end such tax days.

We all know the "domino theory" and have seen it work. We have been setting up our own domino sequence, it appears, and the "tip-over" stage is drawing near. Will it be the IRS case that triggers it? Or action on our Resolution in Michigan? Or Oklahoma? Or any of a dozen other potentials beginning to reach the decision stage?

For a time, it appeared the Calley case might set it off, but whatever it takes, the fast growing tempo of public support for freedom's cause is bringing us ever closer to the event.

All this swift expansion has produced the most critical financial problem we have ever faced. To meet these new demands I come again to ask for your generous help.

Please recruit your friends to this cause, which is so important to them. Ask them to join with you and add their check to yours -- sending them along in the self-addressed envelope enclosed for your convenience. I shall be forever grateful for your maximum help now.

Sincerely,

Willis E. Stone  
National Chairman
