

CRISIS . . .

The Impending Monetary Disaster!

Dear Fellow American:

Get ready for these important developments. They will directly affect you, your family and business . . .

* Despite predictions of recession rampant in the media, the inflation rate reached 10.2 percent in 1978. This year look for inflation to top even the runaway 1973-74 levels at more than 15 percent. The federal deficit will increase as itchy lawmakers eye the coming Congressional elections and offer voters "free" goodies.

* Increasing pressure will force Carter to impose mandatory wage-price controls by early 1980. The reasons: Opinion polls show public support for them and labor liberals will step up demands for controls as the presidential primaries approach. Double-digit inflation and the failure of voluntary guidelines will cinch it.

* Creation of the European common currency will further erode the dollar abroad, increasing the cost of imports--including oil-- and further fueling inflation. This and U.S. oil shipments to Israel under the Carter treaty will up gas to \$1.50-a-gallon by 1980.

* Only The SPOTLIGHT has pointed out that Eurodollars are mainly bank loans denominated in dollars, and that the foreign banks which make them do so without any reserves! The Eurodollar market is set up for collapse when the Arabs start pulling out their deposits-- which they will do when the dollar resumes its decline.

* Due to a little-known Supreme Court decision, the Federal Deposit Insurance Corporation (FDIC)--which probably insures your own savings--will become liable for bank failures. With reserves of only \$7.3 billion--with which it is insuring more than \$628 billion in bank deposits across the country--a new major bank failure will top-ple the FDIC system. Bad news for your savings.

Give a second thought before you dismiss these predictions. They are made by The SPOTLIGHT--the newspaper from Washington which has carried many exclusives, "scoops" and accurate predictions about things which vitally affect you and all other Americans. Here's

proof . . . a listing of some of the biggest stories of 1978--stories which have shocked the nation and shaped the course of world events:

- * Howard Jarvis Pushes Property Tax Cut in California
- * Europeans to Abandon Dollar for New "Ecu" Common Currency
- * Cocaine Use Suspected Among Carter Intimates
- * Torrijos Needs Canal \$\$ To Pay Off U.S. Banks
- * Security Chief Brzezinski Reported Ready to Dump Taiwan

What do they all have in common?

Each was first reported in The SPOTLIGHT--America's largest weekly newspaper printed for YOU, the consumer, taxpayer and voter--at a time when "responsible" pundits ignored it or said it would never happen.

* When we first carried, in December 1975, the story of Howard Jarvis' California tax crusade, the Establishment laughed him off as an "eccentric crackpot." Everyone then pooh-poohed his warnings of a national taxpayers' revolt. Everyone, that is, except The SPOTLIGHT.

* The SPOTLIGHT first uncovered the connections of Carter's Georgia friends and financial backers to the illicit drug industry in August 1976, and yet not until two years later has the conventional media finally awakened to the story--and even then only after a major scandal.

* As The SPOTLIGHT predicted, a new European common currency, agreed to by European leaders at the Bonn and Bremen conferences last spring, has been successfully installed to replace the declining dollar as the international unit of exchange. First reported in July 1978 by The SPOTLIGHT, only recently has this vital story received attention in the major dailies and broadcast networks.

* The close relationship between Carter and Zbigniew Brzezinski was first examined by The SPOTLIGHT in March 1976 when Brzezinski was an unknown. At that time, we noted he was in line for a high position in a Carter administration, and that his membership in the mysterious Trilateral Commission disposed him to favor a U.S. sell-out of Taiwan.

The point is this. The SPOTLIGHT isn't afraid to go out on a limb if that's what it takes to bring you important news the conventional media won't touch. We're not afraid to be ahead of the news because, most often, we're proven right!

That's why, in just three short years, SPOTLIGHT readership

has soared to 700,000. People have come to trust us for hard-hitting investigative reporting that's often years ahead of other media.

How does The SPOTLIGHT go about making predictions that stand up? Not by reading tea leaves or crystal balls but by putting together little-known, significant facts gathered by our world-wide staff of reporters, then analyzing them carefully and responsibly. Glance over some of these other exclusives:

- * Carter Got Fat SBA Loan, Then Used \$\$ for Ga. Governor Race
- * Lance Loaned Carter \$1 Million to Construct Already-Built Warehouse
- * Kissinger Confiscates Libyan-Bought U.S. Transport Planes
- * Porn King Larry Flynt's Shooting Linked to Mob
- * Singlaub Speaks Out--First Public Interview After Sacking by Carter
- * Facts About Israel's Powerful Secret Police--the Mossad--and Their Activities

Moreover, the lesser bureaucrats whose rules and regulations affect us all couldn't escape the harsh glare of The SPOTLIGHT:

- * National Institute on Drug Abuse (NIDA) Chief Smokes Pot
- * Defense Undersecretary's Business Gets Military Contracts, Conflict-of-Interest Seen
- * Trade Bureau Commissioner on Foreign Trade Association Payroll
- * State Dept. Tells Red Cuba About Anti-Castro Activities in U.S.
- * FEC Commissioner Had Unethical Practices in Own Past Campaign, Welched on Campaign Debts
- * Currency Comptroller Stuck Depositors for \$11 Million in Past FDIC Post
- * U.S. Firearms Bureau Chief Lies to Promote Gun Control

And of course, there are outrageous abuses of the money you pay in taxes and for the products you buy unearthed by The SPOTLIGHT:

- * Why Interest is a Major Cause of Inflation

- * Foster Homes Encourage Runaways in Exchange for Government Fees
- * Tax \$\$ Fund Transcendental Meditation in Schools
- * Big Gunmakers Push Control to Ensure Own Market
- * Coca-Cola Made from Cocaine Plant
- * Banks Rig Dollar Crisis to Reap More Profits

As you can see, The SPOTLIGHT covers the broad gamut of issues important to YOU--government, taxes, investments, legislation, morality, defense, insiders' banking news, the international scene, health happenings and much, much more. The writing is light and breezy, for people like you who are intelligent but may not be an expert in the field.

Why do we stick our necks out like this?

Because we're biased--that's right, we admit it --biased toward your best interests, you the consumer, taxpayer and voter who's going broke providing government handouts to the special interests. The SPOTLIGHT is written from that view.

Let the major dailies and weekly "news" magazines, the TV and radio networks, parrot the official, orthodox Establishment line--they do a good enough job of that. But let The SPOTLIGHT give you "the other side of the news."

If you're like most people, you already harbor doubts about the quality of the conventional media, about their lack of commitment to "the facts." So, you decide who's telling you the truth--we or they. We want to offer you the news they won't touch for fear of offending their advertisers or unleashing government harassment.

And we tell the personal stories, too, of common people just like you and me who get trampled in the crush of Big Brother government. Stories that are too "commonplace" for the huge, impersonal communications conglomerates, and would be lost unless The SPOTLIGHT brought them to the public's attention:

- * Tax Strikers Protest IRS Piracy, Vow Not to Pay
- * Parents Score HEW Booklet That Promotes Teenage Drinking
- * Four Cancer Patients Die As FDA Blocks Their Laetrile
- * Taxpayer Dies, IRS Muzzles Agents Who Saw Him Last During Audit

- * Father Jailed for Teaching Kids At Home
- * Taxpayers Target of "Deliberate Embarrassment"
Boasts Secret IRS Memo
- * OSHA Moves to Control Leasing of Businessman's
Private Land
- * Citizens Circulate Petitions for Tax Cut
Initiatives

Three years ago, critics said a people-oriented newspaper like The SPOTLIGHT couldn't survive. But today not only has The SPOTLIGHT survived, nearly three-quarter million readers depend on it to stay in stride with an everchanging world.

They depend on The SPOTLIGHT for its news-packed, informative weekly features that in each issue offer valuable insights and important observations:

- * "This Is Liberty Lobby"--Bob Bartell's roundup of the best scripts broadcast over the 405 stations that carry this great radio program daily.
- * "Our World In Conflict"--Dr. Martin Larson's valuable advice on taxes and financial matters that can save you lots of money.
- * "News You May Have Missed"--Capsule summaries of late-breaking news you should know, news the controlled press "forgot" to print.
- * "World Echoes"--Fast-moving, informative gleanings from the foreign press that somehow haven't appeared here at home.
- * "Spotlight On Congress"--An in-depth look at bills pending in Congress, bills that affect YOU, and how your congressman voted.
- * "Spotlight On People"--A weekly full-page photo essay highlighting the newsmakers both big and small.
- * "Datebook"--A roundup of upcoming patriotic events unequalled in the political press, plus two weekly profiles of local citizen taxpayer and health groups.

These weekly features are, of course, vital, news-packed and informative items. But besides all the advantages The SPOTLIGHT offers to you personally, our newspaper is important to you in a broader sense as well. How can we, as Americans, effect the reforms we want unless people are informed about the problems? The SPOT-

LIGHT has shown itself to be the only publication willing to buck the Establishment and bring you the real facts.

You'd expect a weekly newspaper with everything The SPOTLIGHT has to offer to cost at least as much as the major weekly "news" magazines. But the subscription price is only \$16 for 52 issues --and you can have your money back for all unmailed copies if we've misrepresented it in any way!

And if you act today, we'll send you copies of "The Upright Spike of '79: Doomsday for America" and "Doomsday Reconsidered" compliments of The SPOTLIGHT. These invaluable reports (thousands have been sold for \$12 each) by Dr. E. L. Anderson tell exactly why our money system is about to collapse and when . . . and tell how you and your loved ones can survive in the debacle ahead. Remember, you can have them for nothing extra, if you subscribe by return mail!

Without a doubt, The SPOTLIGHT is today's greatest value in news periodicals--and with a money-back guarantee, you can only be glad you subscribed. Enclosed is a return-addressed envelope and an order form for your convenience in replying. We look forward to hearing from you.

Sincerely Yours,

James P. Tucker, Jr.
James P. Tucker, Jr.
Managing Editor

P.S. Because of the extra attention we give to financial coverage, you can deduct the subscription price of The SPOTLIGHT from your income tax as a business expense, assuming that you intend to use the information in the paper to assist your business or increase your income. (And if you don't intend to do just that, you're missing a golden opportunity!)
