

Sisters and Brothers,

The May Day office has been established in Washington to help organize the Washington phase of "May Day" actions and act as a clearing house for other May Day actions across the country.

We now need information from you. If you are in a May Day collective or organization give us an idea on what you are doing and if there is any way we can help you. If you are not in a group then we can give you contacts of people in your area that are.

Here in the office we are gathering materials that you might need for organizing for the May actions. If you would like to order some of these materials it will take a little bread on your part to get it to you. Make checks payable to the May Day Collective.

Literature: Appeal to Youth from Mme Binh  
Inside Fat City or How Wash. D.C. works  
Let Vietnam Live (Interview with Rennie Davis on Vietnam)  
The Next Moves for the Peace Movement (David Gelber, NY Times)  
Peace Treaties  
Why Civil Disobedience in May

More as we get it printed.

May Day Movie: A forty minute color film has been made and can be used for organizing purposes. The film explains the crisis level now being reached in Vietnam. It shows the effect of forced urbanization in Vietnam and the destruction of the land. An interview with Mme. Binh in Paris and clippings from the Youth Coalition conference in Ann Arbor. The film is really fantastic. It will be ready for distribution around March 21st. So make arrangements soon on getting the film sent to you.

May Day Speakers: The movement speakers bureau has moved to the May Day Office to coordinate speakers around May Day activities. If you would like a speaker in your area call Bob Lamb or Guy Bowe at 628-8057 (202).

Many May Day groups are sending representatives down to Wash. to check out the city and get a better idea of what's coming off. If your group is sending someone down give us a ring before the person arrives.
