PO BOX 149

April 22, 1971

Sisters and Brothers,

Over the last six months many movement organizations - groups- or collectives have purchased the Liberation Graphics materials which we distribute. Although the response to our posters and the International Women's Calendar has been good, we who have worked on Liberation Graphics and Movement Media Distributors are at this point moving toward more local organizing work. In many ways the bureaucratic requirements of distributing our materials nationally has held back our political growth...kept us away from direct contact and interaction with the people.

The last year has been a difficult one for those of us who have identified our lives with the development of a mass revolutionary movement - and to us it seems crucial to engage in those activities which will help us understand how to build such a movement. At this point we do not feel that the mass production and national distribution of graphics can teach us this. In the near future you will receive another letter from us explaining more fully...

For the present, we need to finish distributing the posters and calendars which we have already produced. Below is a listing of the items we have left. We hope that as many of you as possible will place a final order. We would like to complete this closing out process as rapidly as possible - and we ask that your orders be prepaid. If this is not possible, could you send us a check as soon as you can.

In Love and Struggle,

the sisters and brothers of  
Liberation Graphics and  
Movement Media Distributors
