Important New Documentary!

AUTOMATED AIR WAR[®]

Nixon is not "winding down the war." Ground troops are being replaced by automated air war.

The NARMIC slide show explains how this automated warfare works.

It shows the electronic sensors, the unmanned airplanes, the TV-guided bombs, the computers, the anti-personnel weapons which add up to war by remote control.

With photographs and drawings by refugees it shows how an entire society in Laos was deliberately destroyed from the air, with the victims never seeing an American face.

Eyewitness photos tell the story of a 'stable war' with no end in sight.

SLIDE SHOW

COST: \$50 plus \$5 shipping and handling

- Numbered Script, earefully footnoted
- Packet of background materials
- Running Time - 30 minutes
- 140 color 35-mm slides

AN EXCELLENT PEACE EDUCATION TOOL
