# FORCOr FREEDOM

# NTS

NTS, founded in 1930 by Russian emigre students in Europe, first penetrated USSR in 1934; greatly accelerated its operations during and after World War II. It is now the organized force for freedom among the Russian people.

NTS political program advocates a representative form of government, based on the intrinsic worth of the individual and his rights and responsibilities in a freely organized society.

Membership includes a cross-section of major ethnic and national groups of Russia on both sides of the iron curtain, chiefly in the 20-40 age group.

International headquarters in Frankfurt am Main, Germany, coordinates the open activities of NTS members in some 30 countries of the free world, with the underground operations inside the USSR and in satellite countries.

Soviet attacks against NTS on underground, diplomatic and propaganda levels have actually served to publicize NTS throughout Russia, with resultant gain in NTS support.

Financial support comes from NTS members in the free world and voluntary contributions by private citizens and groups. NTS is **not subsidized** by any government, faction or organization.

## What Americans say about NTS

*"The Solidarists (NTS) are waging their secret fight against the Soviet regime with courage, imagination and more than a little ingenuity."*

—NEW YORK TIMES

*"This is the first anti-Communist movement NTS does a great deal to break down the myth that nothing can be done. NTS, created by Russians, believes that the enemy can be made to collapse from within. It deserves public support."*

—ELMER PETERSON

*"The best indication that the Kremlin is taking Boldyreff's propaganda (NTS broadcasts to Cuba) seriously is the fact that Radio Moscow is now fighting back with daily broadcasts."*

—LIFE MAGAZINE

*"Special appeal of the NTS broadcasts is that they are reports from Russians to Russians in terms of 'we' instead of 'you'."*

—LOS ANGELES TIMES

*"In such broadcasts these anti-Communist, freedom-loving Russians (NTS) may well cause the Kremlin to have second thoughts... (and) may prove to be one of the strongest instruments of pressure (to remove Soviet troops from Cuba)."*

—ROSCOE DRUMMOND

*"So powerful a force has NTS become that the official Moscow radio and press continually denounce it as the work of American plotters, although its entire personnel is Russian."*

—CHICAGO TRIBUNE

*"It's extremely important now for us to support true anti-Communism. The National Alliance of Russian Solidarists (NTS) are really doing something effective."*

—STEVE ALLEN

*"If NTS is supported wholly by voluntary contributions. Here would seem to be a rare opportunity for Americans to contribute to the advancement of liberty."*

—OAKLAND TRIBUNE

C. W. Boldyreff (left), Director, U.S. Branch of NTS, meets with Dr. Norvel Young, President, Pepperdine College, on latter's return from trip to the Soviet Union.

## What Communists say about NTS

*"A group of criminal elements calling themselves the NTS still continues its hostile and subversive activities with regard to the Soviet Union. Publications distributed by this organization and fabricated under the guise of Soviet newspapers and Books by Soviet Authors' contain slanders on the Soviet Union and incitement to criminal acts.*

—**PRAVDA**  
("The Truth," official newspaper of the Communist Party, USSR)

*"The propaganda venom is spread not only by air, but also by land. An example of the 'goods' produced by NTS are on the table before me—a few cakes of soap that superficially appear as normal scented soap. But a slight incision reveals a piece of paper. Concealed in the cakes of soap are leaflets. This soap was found in public washrooms."*

—**KRASNAYA ZVEZDA**  
("The Red Star," Soviet Army Newspaper)

*"NTS uses all possible means to smuggle into our country its demagogic anti-Soviet fabrications. Brochures, magazines, leaflets, letters with anti-Soviet contents are sent to any person whose address they succeed in getting. These materials are in book parcels, in commercial catalogs, in the crates of machines delivered from foreign countries, and so on."*

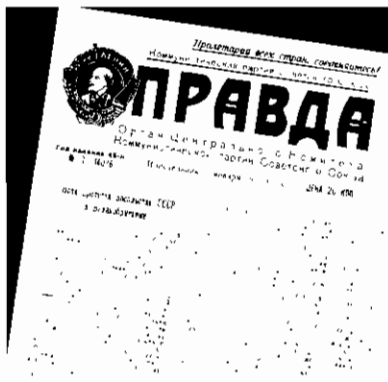

—**SOVETSKAYA MOLDAVIYA**  
(Soviet Govt. newspaper for Moldavia)

*"Soviet sailor, beware of the propaganda and activities of NTS!... It is a subversive and criminal organization that works against the people's government"*

—**VODNI TRANSPORT**  
("Water Transport," official newspaper for Soviet Merchant Marine)

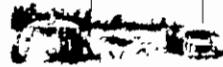

*"That low-duty procurator, C. W. Boldyreff, calls himself the editor of 'Free Russia' in the United States. Just think—Russia in the United States! From the moment the Cuban conflict started this 'Voice of Free Russia' has been croaking out stinking lies to disturb the Soviet citizens in Cuba."*

—**GOLOS RODINY**  
("Voice of the Homeland," Soviet newspaper for Russians abroad)

PRAVDA reports Soviet protest against activities of NTS members among Russian sailors in British ports—but did not report British rejection of the Soviet protest.

## NTS in ACTION

Russian-to-Russian broadcasts over the independent stations of NTS Radio Free Russia have a unique appeal that cannot be matched by any Russian-language program of foreign origin. Initiated in 1950, NTS Radio Free Russia now broadcasts daily into the USSR and other Communist countries from clandestine mobile short-wave transmitters in Europe and powerful stations in Asia... and to Russians in Cuba and other Latin American countries from the underground Radio Libertad.

The NTS printing plant in Germany produces folders, booklets, underground newspapers, magazines, books—often disguised as facsimiles of Soviet publications—distributed by ingenious underground means and by Soviet personnel returning from satellite countries to USSR.

Soviet citizens abroad—members of delegations, tourists, sailors, troops—are personally contacted by NTS members and often seek such contacts. Among 5,000 such interviews during a year, about 15% were party-line Communists, the great majority neutral or sympathetic to NTS, and 15% became active NTS supporters.

Inside the USSR, NTS members form a decentralized underground composed of "molecules" of 2 or 3 persons, following a basic plan of operation. They produce and distribute pamphlets, carry out radio instructions, initiate action under opportune conditions, infiltrate strategic posts.

Russian resistance to the regime is evidenced by popular demonstrations, defacing of ballots, protest strikes, defiance of authority by students and intellectuals... by defection of Russian soldiers to the Freedom Fighters in Hungary in 1956 and currently in Cuba... by increased NTS support in spite of strong Soviet counter-action.

Low cost of NTS operations results from the dedicated services of a minimum paid staff with a large corps of trained volunteers. For example, \$5 will pay for 3,300 NTS folders or 2,000 underground newspapers or 50 books of 100 pages each.

# What NTS means to YOU

## HELP NTS PROTECT YOUR FREEDOM!

Russian Freedom Fighters—in the frontline of the battle against Communism—are protecting **your** freedom while fighting for theirs. They need your help!

Trained, experienced, dedicated, they attack Communism where it is most vulnerable—inside the USSR and in Soviet outposts throughout the world. They use the weapons most dangerous to Communism—the truth...positive ideas of freedom...and practical means for achieving it in Russia and other captive countries.

Their internationally known organization—which operates on both sides of the iron curtain—is NTS, **Narodno Trudovoi Soyuz**, National Alliance of Russian Solidarists.

Today, NTS spearheads a strong freedom offensive inside the Soviet Union...in Europe...in Asia...and now in Cuba! Just 90 miles from American shores, NTS is fighting to protect **your** freedom. Will you help?

*The entire production of this folder has been contributed by Americans*

Today, YOU and all peoples of the world share—

- a **universal enemy**  
...international Communism
- a **universal fear**  
...of nuclear war
- a **universal desire**  
...for peace and freedom

There can be no peace without freedom, because only free peoples can maintain peace with honor and security.

**A nuclear war would destroy peace. The Communists are destroying freedom.**

Therefore, to win peace and freedom—**Communism must be destroyed without nuclear war.**

**This is the goal of NTS.**

For a fraction of the money now necessary to spend on armaments, Americans can provide decisive help to NTS—and help make it possible for Russian Freedom Fighters to win the battle against Communism without a war. A **liberating revolution in Russia** would destroy the control center of international Communism, and its branches would die. The people of the world would be freed from Communist enslavement, aggression and subversion.

**This goal is now within reach.** The Russian people, especially the current generation, have become thoroughly disillusioned with Communism. The NTS program for representative government and free enterprise is finding wide acceptance throughout Russia. NTS members are infiltrating every phase of Soviet life, including the armed forces. They are preparing for a popular revolution that will establish a Free Russia with a **minimum of physical conflict.**

Soviet Intelligence has classified NTS since 1953 as "the most dangerous enemy of the Soviet regime." This means that NTS is the most valuable ally of freedom—**your** freedom!

How much is it worth to you?
