STOP THE BRAINWASHERS: OPERATION NUREMBURG

The National Caucus of Labor Committees, the National Unemployed and Welfare Rights Organization, and the Revolutionary Youth Movement are drawing up a list of names.

We have uncovered a mass brainwashing operation in the U.S. We have in our possession detailed capitalist plans, many of which are already being carried out, to brainwash large sections of the U.S. working class through "behavior modification" programs in ghettos, prisons, schools and factories.

Every savage who is setting up, supporting, or covering up this plot is going on our list. These sub-humans are guilty of the worst crime against humanity every committed, the crime of menticide — the willful and systematic destruction of the human mind.

The working class must bring these criminals to trial at Nuremburg, where mind-destruction was first outlawed at the end of World War II. We would not ordinarily demand retributive justice. But this outrage must be stopped. These vicious scum must be tried. Revolutionary judgement will be passed. Sentences will be imposed and executed. Every person on our list will be accounted for.

At the top of our list are the men who conceived this brainwashing plot: the Rockefeller brothers — the people who brought you the CIA, the Great Oil Hoax, mass layoffs and who are now planning a CIA-directed military government in the U.S. as their next gift.

Just below Rockefeller are his conscious agents in the labor movement, led by Leonard Woodcock of the United Auto Workers. This animal has been consciously setting up workers for brainwashing in auto plants. He has organized other "labor statesmen" to carry out the same crime against workers in their unions.

Below Woodcock and his gang appear the names of certain sadistic beasts who call themselves doctors, psychologists and psychiatrists. They have nothing to do with psychology or medical science.

These rat-men are employees of Rockefeller's CIA. Their job is to put labor militants, uncooperative union leaders, working class organizers and ghetto youth into rooms, especially designed for mental-murder operations.

They fill the victim with hideous drugs ("chemotherapy"); they attach wires to the genitals or

head ("electro-convulsive shock"); they insert a beer up the anus and force the victim to sit on it for hours ("aversive therapy"); they force the victim to eat his own feces — to eat **shit**. If all else fails they will put human beings on a table and use a knife to cut out troublesome parts of their brains ("lobotomy" "psychosurgery").

For the masses of ghetto residents and factory workers the CIA Nazi doctors have developed other less costly methods for crippling the ability to think. They call them by names such as "community mental health," "T-groups," "sensitivity training" and all that: **co-participation**. Divide workers into groups. Pitting the workers in one group against other groups in a **speedup** contest. Pull the group together, and conduct "sensitivity" sessions, and "attack" sessions to strip each worker of his identity. Then, give him a new identity — Jonathan Livingston Seagull. "Work to make you free." Then — more speedup! Then more brainwashing!

We are serving notice on the brainwashing criminals. The NCLC and NUWRO are rapidly organizing a mass working-class movement for socialist power within two or three years. At that time, or before then if possible, every criminal whose name we receive will be put in the dock at Nuremburg — first the Rockefellers and then their accomplices in the crime of menticide.

The NCLC and NUWRO want to know the names of anyone in your plant who supports or carries out "behavior modification." We want the names of union and management people who are active in setting up co-participation, or any specialist who has come in to oversee "humanization of the work-place." We want the names of prison officials and doctors; we want the names of Workfare and Work Incentive administrators in the welfare department — anyone who engages in "behavior modification."

The names will go on our list. We welcome the cooperation of those who repent of their crimes and help us root them out.

Send Us the Names:
