

Dear Friend,

This is one of a series of mailings sent out from the Southern Office of the National Committee Against Repressive Legislation. The enclosed information indicates our purpose : to repeal repressive laws already enacted, and to block further legislative encroachments on Constitutional rights to free speech, assembly and association.

The regular mailings we send out convey information about the status of repressive measures in Congress, the activities of Inquisitorial Committees such as the House Internal Security (former Un-American Activities) Committee, and about efforts in the South and in the Nation to oppose repressive acts of government.

The education - action efforts we have begun in the South are part of a national effort. The South -- where 10 of the 20 key Congressmen with control over national legislation reside -- is especially important to this effort. Our financial support for this work comes from individuals in the South such as yourself.

If you wish to be a part of our work against repressive legislation and Inquisitorial Committees, and to receive our mailings, please fill out the enclosed form. Send whatever you can afford in the way of a contribution or make a regular, sustaining pledge. In return for your support, our office can provide literature, speakers and up-to-date information on latest events in Congress to people all over the South. If you cannot afford to give regular financial support, your continuing political action in response to the information we will be sending is enough to keep you on our mailing list.

For Peace & Justice,

Mike Honey, Director  
Southern Office

# NATIONAL COMMITTEE AGAINST REPRESSIVE LEGISLATION
