WHAT IS N.I.C. ?

WHAT IS THE NATIONAL INFORMATION CENTER? NIC is an informal association of individuals involved in doing research on Fascism and the right-wing. We maintain files, subscribe to publications, occasionally publish reports, and infiltrate right-wing groups. NIC is not affiliated with any political organization, and is nonsectarian. As a means of support for our work we make available the pamphlets, books, tapes, films, etc. listed in this catalog.

We welcome inquiries from individuals and groups that share our interest in researching Fascism. Contributions of information, newspaper clippings, right-wing literature, or any other item that you believe would be of interest to NIC will be gladly accepted.

POWER ON THE RIGHT by William W. Turner. (Ramparts Press) Turner, a former FBI agent, examines the now-resurgent right-wing with an expert's eye, covering the whole range of right-wing activity from Ku Klux Klan terrorism to the high-pressure lobbying of the American Security Council — the semi-official channel between the right and the nation's foreign policy makers. Relying on personal contact and investigation, Turner presents a series of frightening vignettes on such subjects as the paramilitary Minutemen organization and its jailed leader, Robert DePugh; Patrick Frawley, chief executive of Schick and Eversharp and financial angel for right-wing ventures; the mushrooming Liberty Lobby with "one foot in neo-Nazi cultism and the other in the lobbies of Congress"; and right-wing evangelists like Carl McIntire, an intimate of both conservative congressmen and Vice President Ky of South Vietnam. Turner, the author of *Hoover's FBI* and *The Police Establishment*, concludes with a look at a sinister new phenomenon: the steady rightward drift of the nation's police departments.

(16) Power On The Right \$5.95

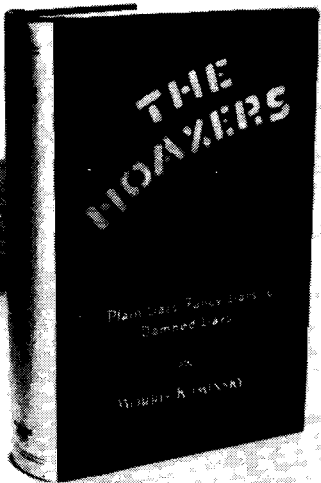

William Turner is a ten-year veteran of the FBI who left the Bureau in 1961 after calling for a congressional investigation of J. Edgar Hoover's policies. Now a journalist and lecturer, Turner has contributed to many magazines,

including *Playboy* and *Ramparts*, and has written police science articles for the legal press. He is the author of *Hoover's FBI*, *The Police Establishment*, and *Invisible Witness*.

THE HOAXERS

By MORRIS KOMINSKY

This book is a monumental achievement in painstaking research, and from it the author has produced a devastating exposé of the Ultra-Rightist and neo-Fascist elements in our society who flood their scurrilous propaganda with paranoid conjectures, fraudulent quotations, racist myths, and literary forgeries. These are the hoaxers, and the fate of our planet will continue to hang on tenuous twine as long as their hate-fomenting falsehoods remain an obstacle on the road to peace. With rare courage and fixity of purpose Mr. Kominsky has met their challenge by furnishing the documented weapons with which they can be put to rout. The motivating spirit of the work seems to be symbolized in an aphorism by the distinguished clergyman, Dr. A. Powell Davies, shortly before his death: "The world is too dangerous for anything but the truth, too small for anything but brotherhood."

EDWARD DREW GOURLEY

THE HOAXERS: Plain Liars, Fancy Liars, and Damned Liars by Morris Kominsky. (Branden Press) We proudly present this monumental book that exposes the incredible number of phoney quotations used by far-rightist and neo-fascist propagandists to dupe the public. We quote a few of the many endorsements:

Brigadier General Hugh B. Hester, (Ret.) "Every reader of *The Churchman* owes it as a patriotic duty to encourage wide readership of this exposure of the real conspiracy against the people of the United States. Unless this conspiracy against the human family can be brought to the attention of a very large number of our people, nothing can prevent this country from becoming Fascist."

Renz L. Jennings, retired Justice of the Arizona Supreme Court: "It is my considered opinion that every person who is seriously concerned about the future of our country, as well as of all mankind, should obtain a copy of this most remarkable book. I consider it the most important book to reach the people of this country in many years."

Superior Court Judge Robert W. Kenny, former California Attorney General: "It is my fond hope that your book will get the massive distribution that it deserves."

Professor Harold C. Urey, world famous Nobel Laureate: "I have read your book with enormous fascination, and I think it is an exceedingly valuable book."

George Seldes, author and journalist: "You have done a great job in *The Hoaxers*. It is a book which should be taken up by universities, foundations, associations, and made required reading in colleges, and especially wherever history is taught."

Professor Frederick L. Schuman, distinguished political scientist: "Your book is a magnificent job of definitive research, disposing for good of the innumerable misrepresentations and fabrications of American Rightists and Fascists."

Gilbert Abcarian, in *Journal of Politics* of the University of Florida: "A masterpiece of political detective work."

Homer Ayres, writer from Sturgis, South Dakota: "It is one of those books I would grab to save if our house caught fire."
