November 25, 1973

Dear Friend,

Do you believe that Richard Nixon would have been elected had the American people known of Watergate, ITT, enemies lists, the secret bombings of Cambodia and countless other scandals prior to November, 1972? We don't think so. We think that Richard Nixon came to power on a wave of fraud, deceit, extortion and bribery. And we intend to prove it, **in court**.

The National Lawyers Guild has committed itself to perhaps the most important lawsuit in America's history - a suit to have the 1972 Presidential election declared null and void, as both its conduct and its outcome were patently *illegal and unconstitutional*.

This is a serious piece of litigation, soundly based in legal precedent and amply supported by the facts. During the past three months teams of National Lawyers Guild members have amassed the factual and legal material necessary to institute this action. Yet most of the work, uncovering sources, taking depositions, investigating evidence, interviewing witnesses and preparing the case for trial, still lies ahead.

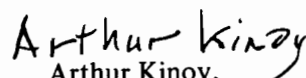

The events of the last several months have made it clear that **WE, THE PEOPLE OF THE UNITED STATES**, must take direct action. Thousands of people have already become plaintiffs in the People's Lawsuit, thousands of people who demand that a strong, independent approach be taken to end Nixon's illegal possession of the Presidency.

Inevitably, the success of the People's Lawsuit will depend on all of us, for we cannot undertake this action alone. But together, we can win. Please support this crucial work by making as great a contribution as you can to the National Lawyers Guild and mailing it in the enclosed envelope today.

Sincerely,

James Larson,
President, National Lawyers Guild

Arthur Kinoy,
Vice President, National Lawyers Guild
Professor of Law, Rutgers University
School of Law
