April 15

National Mobilization Committee To End The War In Vietnam

5 Beekman Street New York, N.Y. 10038 (212)964-6436(9)

October 21-22

APRIL DAYS OF PROTEST AND RESISTANCE

The American war in Vietnam escalates daily. The toll of dead and wounded in Vietnam, both soldiers and civilians, is already horrifying and continues to rise unabated with no indication from our government that a change of policy is forthcoming. Direct involvement in the war is spreading in Southeast Asia and the danger of World War III becomes greater every day.

The price for America's arrogance and inhumanity is being paid by the dead and wounded in Vietnam, the poor and oppressed in our ghettos at home, the children in our congested schools, and the countless others in our society who are being neglected or sacrificed so long as war continues. The total effect of these policies is that we have become a WARMAKING SOCIETY.

Opposition and open resistance to the American aggression in Vietnam is growing. It is imperative that this opposition be kept visible in all its depth and diversity.

TEN DAYS OF PROTEST AND RESISTANCE APRIL 21-30

National Mobilization Committee joins Students for a Democratic Society in calling for ten days of local and regional demonstrations and concentrated organizing efforts around the country. Groups around the world are being contacted so that they can act with us in an expression of international solidarity for freedom and peace. The newly formed Black Anti-War Anti-Draft Union (BAWADU) and the Student Mobilization Committee have joined in the call and are organizing a Student Strike for Friday, April 26.

Chairman: A. J. Muste (1885-1967) Chairman: Dave Dellinger
