

January 14/76
LZ Young, RVN

Dear Folks,

Will write a few lines while I don't have much else to do. I am now working a night shift by myself as Duty NCO. I go to work at 10 pm and get off at 700 am and usually sleep till noon and mess around the hill all afternoon. It is kind of dull at times but it has always been like that - never as exciting as the bush - ha ha!

We finally got some mail and here a few days ago - it had been delayed for a while somewhere along the line. I got eleven letters in one day. A guy in B Co got 33. We hadn't had any mail in two weeks - way overdue.

Heard on the news that there was quite a bit of blizzards last week around home. - Did it ever get very bad. The last couple of days here have been real nice - sunny sky and temperature 75-80. It is even drying out in a couple of place for a change.

Hope you are picking up a box - be sure to put in a few pounds of popcorn - will pop it in the mess hall. Had pizza last night OK except it's hard to get good cheese. Well that's it for now - will write others later.

As ever
Jay
