FLAME THROWING
M-48 TANK

Greetings From Fort Knox, Ky.

PATTON TANK

Armored personnel receive complete instructions in operation and maintenance of all modern combat weapons at Fort Knox.

FLAME THROWING M-48 TANK

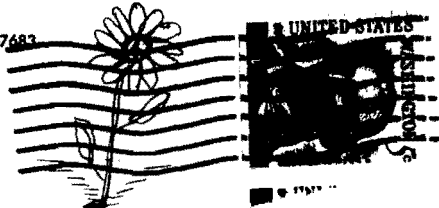

The versatile Patton Tank, shown spewing deadly Napalm from its 90MM gun barrel during field exercises at Fort Knox, is one of the most efficient combat weapons in use.

John,

I got here at Ft Knox about 6:00pm Saturday. We had snow, ice, and rain all the way from Wood. It isn't too cold though, about 35°. I haven't seen any of the post yet but I will shortly. We are in a newly built area, everything is real nice. I will be training for combat armor crewman. will write more later.
