Mary

Hope some of these are ones you don't already have.

When we were at National Archives, I tried to find important events for A Co to copy. They need more copy machines, plus you can have only one box open at a time and only ONE folder out of a box and must take box up to desk to get a new stamp (they check & make sure it can be copied). So it is a very slow process, made necessary by papers (original documents) being taken out - "stolen". Then they check every copy for the stamp before you leave the building.

Some S-2/S-3 log dates are missing also.

We are going back in @ May to move Stephanie back home from Baltimore (then in fall to which ever Grad School), so gonna try to get some more copies.

See you in Ft. Knox

Bill.
