Dear Art

Guess what? I got your truck done Today. I put all the lights on. And painted the mirror black. It looks real sharp. I would have taken some pictures for you but it was real cloudy. It was to dark.

We were talking today about putting a new motor in his red dump. And painting that the same color. When we get the time. ☺

I want to try and cut some fire wood soon. Because Daddy has some orders. We are going to get the flat bed fixed up good. And switch the plates over and try it out.

I don't know if you know
But it must have a blown head
gasket. It has a lot of water
in the oil This Sunday I will
try and put new head gaskets
on it and fix the parking lights
they might have just bad bulbs.
And dad wants to put those
lights on the top of the cab.

I had a real busy day
today. When I got up to
go to Daddy. My car wouldn't
start. I had to put a new starter
and carburetor on it What a
time I had putting on the
starter. I had to cut a piston
on the fire wall out. I got a
carburetor at Becks about a week
or month ago. And it was no good

2/
When you shot it off. Gas
would drain back in the motor
And it would be hard starting
It starts real good now.

I fixed a hole pump for
Dad. It had a burnt Valve.

We put Two new valves in
it and I seated them. And put
it back together. When we went
to start it. It wouldn't turn
over hardly. Dad said those
pumps freeze up when the set
What a hell of a time we had
to get it to start. But it did
and it ran good.

We done some drivings
in at Den Hollow. We had to
do them by hand What a job
that was. I only had two men

helping me. We done six
and granted four more. What
a day that was. My back was
busted

Cal from Wills Bit was
asking about you. He said to
tell you he was glad to hear
you got in a shop.

Guess what somebody broke
into the Bayville Post Office and
blew the safe up. And got around
\$3,000. They don't know who done
it. They had to have a lot of
men to break in and blow up the
safe.

Today is Sunday. And I hate
to think I had to go to work
Tomorrow. We will probably half

4/
to do more driveway. But I
guess work could be worse.

We could have to lay water
pipe with Dummy Johnson 😊

How are you making
out. I hope you enjoy the work
you are doing. Are you real busy?
How is your new shop making out?
They are building. How big is
it going to be. Will you be able to
work on big trucks inside. I hear it
gets real hot over there?

Well Art I guess I will
sign off here. And we all send
you all our love. So take care.

P.S.
Take care
and behave
yourself Barb

Love
Don Pat
