Dear Art -

Hi there kid! And how
are you? Fine and healthy
I hope.

So how do you like that
God-forsaken country? Not one
bit I bet. Your time will
go by quickly - I promise that!
They only have 270 some odd
days left over there. Before
you know it you'll be saying
the same thing. If things keep
up the way they are going
you may be home sooner
than you think. I sure hope

so anyway.

Guy has been writing & telling me he is planning on coming to see you soon. Don't give up hope. I'll get over there yet.

Your mom stopped in the cleaners the other day and said that you had received your first bundle of mail. It must have been great to get. I suppose they dropped a whole mail bag full on you just as they did to Guy. Oh well, it's always fun.

So, are you a welder over

there, too? I sure hope you
are doing what you like. It
makes things a lot easier.

Guy mentioned something
about him being excess in Sin
Hou so he was thinking of
changing his outfit. Some
outfit in Lang. But I think
that's near you! If it is I
pity the Army. They'll never
get anything done right! It
will be better for both of
you anyway. At least you'll
have each others company.

Well, there's nothing new

around Bayville that I know
of. Nothing exciting ever happens.

Well then soldiers, I guess
I'll close for tonight and get to
bed.

Take Care & God be with you-

Best of health-
Lie

P.S. Write whenever you
get the chance. Okay?
