Dear Art.

There is no school today
we are having a hurricane
like it was last time about
four years ago when it came
too

It blew down a few trees
most of them were half dead
one was out near the barbecue.

I just got back from seeing
Nat. at the Hospital. She seemed
a lot better she talked like
she felt pretty good.

There is an old English
lady in the room besides two
other ladies. The English lady
is good company for Nat she
is very pleasant.
Friday Billy Miller

traded in a 21P in good
shape on a 700 XL the last
one we had the 700 XL is now
a 901.

The man that brought an XL-1L
Came down from Phila. He wanted
to trade in a Sears saw I offered
him a 184.95 XL-1L for 135.- and
the Sears saw he thought he
wanted rather keep the Sears saw
and said - gave him 20.00
off the other one. So I gave him
the XL for the same 165.- He
came all the way down from
Phila He left the Sears saw for
a check up.

Mother just left to see
Nt Teddy wanted to go down
carried him out to the car
so he wouldn't get it all wet.

Sammy called from the garage
Pat is going to check his car, Sammy
is coming down to get his pickup
the battery is dead I just changed
the one out of your car yesterday.
Lucky because the electric is off
now.

Dick Beyer brought a friend
down yesterday brought the last
white Pioneer. 12" I charged him
125. - Geo. Neufinger was here
while Dick got the saw
Geo. didn't stay long he was
just about out with a cold
and said he was going home.

I have to call Joe Pinto
about a Hale Chrysler King
for Ben Weiss the man who
bought the High Pressure Forest
115. P. Love Dad.
