12/5/68 THUR.

Dear Art.

At Cental 8:15 it is clear and cooler.

I fixed the other Super 12 last night. Had crankcase off and all put Beaumg into new side bore when Bar studs are and put it back to gether put new type gas pack up in it runs good. I hope to have ready for FR 1. Night with Bar & Cham if it still runs good it will be alright.

I put the bar & Cham on and the saw runs real good.

At St Joe it started to snow and the kids are yelling and shaking the trees. It's dark and is really blowing.

I guess it will be colder soon.

Roy Applegate from 72 Rant when you took wood one time came up and

bought his neighbor Bought a 71
HTB. I didn't know a 52 so I gave
him a C-72. HTB. Bu for 140.—

I took the Super XL all
apart last night, the on that gives
trouble I tried it with a new
Chain ~~it ran~~ but it cut good but
shot right off too rich one minute
to lean the next only at idling it
probably did the same at High
speed only it didn't show up. I have
the Comb Shift and ad Beany
man and Needle Bag and seals

Nat is getting along good Mother
and Lea went to Ashley Park yesterday
Mother went to the Du for a check
up and they went shopping.

Love Dad.
