

Dear Mom & Dad,

Well here it is Friday already and not much has happened. Last night was the first night we never got fired at at all. We felt good cause we got some sleep for a change. I took radio watch till about 1:00 in the morning and then slept till 8:00.

We have quite a time here now cause we know that the VC watch us all day because we try to catch them at night & they know what we are trying & avoid it.

There hasn't been a lot of activity,

Here, mainly working on our positions  
and resting. We have been working  
hard & long.

One of these days though they  
are going to hit us hard but all  
we can do is wait for them cause we  
cannot find them.

These guys are really doing great,  
not much griping or anything.

Well so much for what I'm  
doing.

How many steers & Heifers  
did you sell? Sounds like you  
make a little money on them.

What has been happening around

d' AC? Nothing much I don't  
suppose.

Does The ~~the~~ VW still run? Maybe

I had ought to just keep her and  
then you would have it there if  
you need it. It would be a good  
car for you to drive around.

Gets good gas mileage & everything.

How cold is it at home? But it  
gets down right chilly there now.

How much was Les Huston going  
to charge to fix it? Sure will  
be nice to get home again.

There's a lot more to do at  
home than over here.

They say their going to build a place  
to show movies over here. Hope so  
it will pass the time then.

I wrote to Jean, Bev, Marvin  
& you all in one day. That's pretty  
good.

I'm going to try to send some  
films home to get developed.  
When I do can you get 40 copies  
of each one & then I'll have one  
for each man in the platoon. That  
is the ones with more than just  
me in it.

Why don't you send me some of that  
pre-sweetened Kool-Aid when you send the  
cookies. Sure could go for more than  
warm water.

Well guess I'll close now.

Love Ray
