My dearest brother!

①

On receiving your gift and letter this morning, I am very happy and proud with my friends. It keeps very good shape. Your outstanding and precious gift remains always in my mind and I will keep it all my life.

My brother! I am very emotional and grateful about your job. You are very kind to me and my family. I don't know what I do for you as you did for me. I wrote this letter to you at night in my own room. I was very emotional brother! I hope to meet you again soon either in VN or in U.S. I will relate all my emotions about you. I sent all my warmest regards and emotions to my sister and my nephews. Your sister and nephews are becoming healthy, I don't receive yet my sister's gift. When I did, I will write to you.

On 1st August, I will go to Saigon to test my language. I must attend the English course right now till the day I go to the U.S. school. It is a long time for friends

when I will be promoted first Lt. (4)

I photograph myself and send to you.

Finally, I sincerely wish you and
your family the best health and
happiness.

respectfully and sincerely
Your young brother
