

Mytho 06 May 1966.

Dear Major METZNER,

It takes me months and months to have an occasion to write to you though I want to do it every day.

I do say I have always thinking to my dearest friend who had helped ~~me~~ and encouraged in many occasions in the past. I hope that our relationship still be as tighten as it was in the past year.

As you know, 7th Division has improved very much in the pacification program and this year, particularly, 65 has more to do on

taking care of soldiers by training them to understand the cause which they are fighting for. Some of VN PX items have been transported in the field for sell to soldiers in pacification program. Capt TUAN, Lt DET are busy with the Division's plan, and they are very enjoyed to the success of their mission.

In my occupation as Chief of Division staff, I miss one more time the hope to go to Fort Leavenworth this year. Such thing makes me a little sad, but I try to do something for the Division, for my country in order to forget the hope which has not been realized yet.

How about your job in Pentagon, dear Major METZNER?

In case of my desire to go to the U.S.A. will be realized, I never forget to see the friend I can learn many good things.

I stop my letter here, Major METZNER. I wish you good success. Please, present my best regards to Mrs METZNER and your family.

Sincerely yours,

Lt Col. NGO LE TUE
Chief of Staff
7th Division.
