

January 19, 2002

Dear Col. Ed Metzner,

I really enjoyed listening to your presentation on the vietnam war. I really hadn't realized there was a secondary war going on. I thought it was really interesting how you explained the ink blot theory and how it worked because I have never really heard about it before.

I think the thing that really impressed me was your medals and awards. I would also like to know more about your job as a supervisor and the time you spent in the war because there is not much direct information that I could find on it. Where you stationed in the same place a 4 towns or different areas.

Sincerely,

Frederyn Guglielmo
