Ed-

Thanks a bunch for coming in to speak. Society spends so much time talking about what we did wrong in Vietnam, it's important for our students to understand another side to the war. The kids told me they learned a lot. Thanks again for bringing in a copy of your book. I ended up giving it to two friends, Celeste and Sara. Both are neat young ladies and will really appreciate it.

I had our librarian order your new book. I look forward to checking it out and reading it!

I really appreciate your willingness to come in. Take care

- Bob
