

Dear Col. Metzner

I just wanted to thank you for taking the time to come to our school and talk about your experiences you had during the war. You are a true hero because you served our country. You sacrificed your life, and risked leaving some of your family and friends. The information you provided us was very helpful, your understandings of the war, were very clear and I understood it better. Thank you for your services you are a very sagacious person. Thank you once again for your time.

Sincerely,  
Adaliã García
