

Dear Col. Metzner,

I wanted to thank you for coming to Mr. Agan's class and talking to the students including myself. I know that personally I enjoyed getting a different view about the war. Not the text book way, but the way it actually happened. It is a much better way of learning because you can tell the emotion that went into fighting for your country. I wanted to thank you for the effort that you put into fighting for our country. In your presentation, I liked the part when you brought out your Army jacket. Not only was it extremely impressive, but it was inspirational as well. It shows that one person can do so much, and almost nothing is impossible for just one man. Thank you again for spending your valuable time with us. I know that I will remember what you said for a long time.

Sincerely,

Alyssa Burt
