

Dear Mr. Metzner,

6-13-01

I really enjoyed hearing you speak about your experiences in Vietnam on Tuesday, June 12, 2001. Thank you so much. History class is very limited when it comes to personal, real-life views of the war; hearing it from you made the lesson a lot more interesting. I had never known that Vietnam had so many advisors for all sorts of jobs and titles, or that it was even split into provinces! Again, it is one of those things history classes never get into too much detail with. One thing is for sure, though... your jacket looked so cool! I do not think I have ever seen a suit jacket with so many metals and pins everywhere!!! You surely deserved every one of them, I'm sure! But thank you so much for staying, serving, and fighting in Vietnam for this country and the Southern people in Vietnam in those villages. Without men with courage to stay such as yours, I don't think we would have lasted nearly as long as we did, or come out with as much pride.

Thankyou Mr. Metzner...

Sincerely,
Jessica Ball
