

Dear Col. Metzner,

June 12, 01

I really enjoyed your presentation it caught my attention. It's really interesting how you have done medals and achieved your job in Vietnam personally I admire your courage to overcome and survive in the battle. Your suit was really nice it looks like you deserved to wear it. Hopefully it will bring you good memories and you'll remember you won't have to go back ever again. I really admire a person who is willing to tell their story even if it can hurt, it was nice listening to your presentation hope to see you again.

Sincerely

Sandra Camacho
