

Dear Mr Metzner

January 19, 2001

How do you do? I am writing this letter to you to show my appreciation to you for coming to our class and talking to us about your experience in the Vietnam war.

It really interested me how you explained your point of view from the two wars of Vietnam, the Vietcong fighting the South and the local war of pacification. I really am amazed to see that you see the war as an honorable thing as you risked so much. I really want you to know that without people like you, who really care about others and their state of well being, we wouldn't have gone as far as the nation has. I am glad I had the opportunity to meet someone special who has done so much for the country. One thing I will always remember is what you said "We did more than advise." As an adviser you helped fight the local wars of pacification -- and that is an honorable thing. Once again, Thank You for coming in.

Monica Linarez
